COMBO

ARTWORK GUIDE

This packet prepares branded artwork for the PROXY COMBO. The print areas below come from the factory drawings; Page 2 is the merged customer dieline at 1:1. Body artwork goes on the back and both sides, never the front. Return a production-ready file and your editable source.

FRONT SCREEN: the display is 25 × 27 mm (Page 2). Branding sits in the PROXY safe area at its top, 24 × 13.5 mm, derived from the factory geometry, not dimensioned by the factory. The voltage and puff-count area below is factory controlled.

FRONT

BACK

PRINTABLE AREA

Device	COMBO • 38 × 17 × 78 mm • 2 × 1.0 mL
Surfaces	Body print: Back • Left • Right • front screen branding – Page 2
Front area (W × H)	No body printing • the display occupies the front face
Back area (W × H)	31.91 × 42.68 mm • 32.07 mm from device top • factory LOGO area
Keep clear	Right side: preheat button 5.09 × 11.15 mm • Front: no body printing
Body & finish	Translucent: Standard Molded Color only

All dimensions are derived from the factory-supplied 1:1 drawings. The print areas stated on this page are authoritative.

ARTWORK SETUP

Scale	Work at 1:1 against the dimensions on this page
Accepted formats	PDF • SVG • PNG • JPG
Artwork files	Vector preferred • raster below ~150 ppi at placed size is flagged for review
Brand colors	List Pantone (PMS) references where defined and include them with your files
The dieline	Reference only – place artwork against it, never redraw or rescale it
Mouthpiece	Translucent, molded to match the housing

On-screen color is an approximation. Production color is matched to the confirmed Pantone reference.

FILE DELIVERY

1 • Production file	Final artwork at 1:1 on the stated print areas – PDF or SVG preferred
2 • Editable source	Original working file, kept editable – changes never mean redrawing
Submission	Configurator Step 3 upload • or via your PROXY representative
Printing	UV print or silk screen • back • sides 14.00 × 63.50 mm each • none on the front

BEFORE YOU SUBMIT
