ARTWORK GUIDE

This packet prepares branded artwork for the PROXY DUO. Page 2 is the original factory dieline at 1:1 scale. Place your artwork within the marked OEM printing areas, keep the keep-clear regions open, and return both a production-ready file and your editable source. Send questions to PROXY at any point.

Prefer a guided setup? PROXY's online configurator places and measures artwork on the DUO for you, front and back, checks resolution at print size, and flags anything that crosses a keep-clear area.
