

## ALL-IN-ONE SERIES • OEM ARTWORK

# ECO

## ARTWORK GUIDE

This packet prepares branded artwork for the PROXY ECO. Page 2 is the original factory dieline at 1:1 scale. Place your artwork within the marked OEM printing areas, keep the oil window open, and return both a production-ready file and your editable source. Send questions to PROXY at any point.

Prefer a guided setup? PROXY's online configurator places and measures artwork on the ECO for you, front and back, checks resolution at print size, and flags anything that crosses the oil window.

## PRINTABLE AREA

|                    |                                                                                    |
|--------------------|------------------------------------------------------------------------------------|
| Device             | ECO • 38 × 16 × 68 mm                                                              |
| Surfaces           | Front • Back – marked on Page 2                                                    |
| Front area (W × H) | 33.50 × 52.00 mm • 15.59 mm from device top                                        |
| Back area (W × H)  | 33.50 × 52.00 mm • 15.49 mm from device top                                        |
| Keep clear         | Oil window • 12.29 × 15.73 mm • front and back                                     |
| Body & finish      | Translucent: Standard Molded Color only • Opaque: molded, painted or electroplated |

All dimensions are derived from the factory-supplied 1:1 dieline. The drawn print boundaries on Page 2 are authoritative.

## ARTWORK SETUP

|                  |                                                                                 |
|------------------|---------------------------------------------------------------------------------|
| Scale            | Work at 1:1 against the Page 2 dieline                                          |
| Accepted formats | PDF • SVG • PNG • JPG                                                           |
| Artwork files    | Vector preferred • raster below ~150 ppi at placed size is flagged for review   |
| Brand colors     | List Pantone (PMS) references where defined and include them with your files    |
| The dieline      | Reference only – place artwork against it, never redraw or rescale it           |
| Mouthpiece       | Opaque or Translucent • matches the body or a Pantone • Clear: translucent only |

On-screen color is an approximation. Production color is matched to the confirmed Pantone reference.

## FILE DELIVERY

|                     |                                                                          |
|---------------------|--------------------------------------------------------------------------|
| 1 • Production file | Final artwork at 1:1 on the Page 2 boundaries – PDF or SVG preferred     |
| 2 • Editable source | Original working file, kept editable – changes never mean redrawing      |
| Submission          | Configurator Step 2 upload • or via your PROXY representative            |
| Printing            | UV print or silk screen • front and back • available on both body styles |

## BEFORE YOU SUBMIT

- ✓ Artwork sits inside the marked OEM printing areas on Page 2
- ✓ Oil window kept clear on both surfaces • one body style noted for both
- ✓ Prepared at 1:1 • factory dieline unaltered
- ✓ Production file and editable source both included
- ✓ Pantone references listed for any PMS-defined brand colors
